

MEGHANN C. SILAGAN

SEATTLE WA 98112 | (847) 902 6867 | MEGHANNSILAGAN@GMAIL.COM

SKILLS	Certifications: HashiCorp Cloud Engineer Certification - Terraform Associate Languages: Python, Terraform (HCL), PowerShell, C++, Java, Perl Cloud Providers: AWS, Google Cloud Platform, Azure Monitoring: Datadog, Dynatrace, Zabbix Build/Deploy: Jenkins, GitHub Actions, Docker, Kubernetes, Gradle, Git, Artifactory, Ansible Other: Terraform Enterprise, GitHub Enterprise, Linux, Windows, VMware, Ruby on Rails, Agile, Scrum, Project Management	
RELEVANT EXPERIENCE	SITE RELIABILITY ENGINEER	November 2021 – July 2025
	Chewy, Seattle, WA	
	- Engineered autonomous monitoring as code to bootstrap alerts, SLOs/SLIs, and more for hundreds of services, facilitating self-service maintenance of Datadog and Dynatrace - Automated application scaling processes to enhance performance for over 140 services during peak season traffic periods eliminating manual toil and resulting in significant cost optimization - Devised impactful deployment strategies for internationalization and migration efforts, optimizing CI/CD to ensure seamless rollouts - Provided professional engineering mentorship to multiple interns through aiding in the technical definition and delivery of the intern-led DORA (DevOps Research & Assessment) metrics project	
	CLOUD ENGINEER	July 2021 – October 2021
LEADERSHIP	General Mills, Minneapolis, MN	
	- Accelerated hybrid cloud adoption through engineering scalable infrastructure as code resulting in the secure, expedited delivery of end-user requirements including compute, backups, networking, tooling, and more - Technical lead in architecting cloud-based infrastructure, delivery, and automation for Data and Analytics teams taking into consideration machine learning requisites - Facilitated development teams' evaluation of multiple cloud platforms in RFP through the provisioning of Azure Kubernetes clusters, subscriptions, projects, IAM policies, and more	
	ASSOCIATE PLATFORM ENGINEER	August 2019 – July 2021
	General Mills, Minneapolis, MN	
EDUCATION	- Established foundational framework for cloud migration including server request automation, Terraform Enterprise, Sentinel Policy, and Ansible configuration management - Transformed team to adopt best Agile and software delivery practices via the establishment of team's Kanban boards, scrum meetings, git repositories, Jenkins pipelines and more	
	FULL STACK SOFTWARE ENGINEER	September 2018 – May 2019
	Software for Good, Minneapolis, MN	
	Engaged in full-stack design & development to create an application for a mission-driven client using tools including Ruby on Rails & Javascript/JQuery	
LEADERSHIP	CERTIFIED SNOWBOARD INSTRUCTOR	November 2022 - Present
	Ski and Snowboard School, Stevens Pass	
	Provides personalized instruction to diverse groups and individuals of varying skill levels, ensuring exceptional guest service in a safe and fun environment	
	CULTURAL PILLAR LEAD	January 2021 – October 2021
EDUCATION	Asian Leadership Network, General Mills	
	Led cultural pillar to coordinate and plan culturally relevant and inclusive events that catered to the diverse backgrounds of hundreds of employees and their families	
	ENGAGEMENT PILLAR LEAD	August 2020 – October 2021
	Women in Digital and Technology, General Mills	
EDUCATION	Orchestrated impactful events to empower and amplify the voices of women in the technology organization, ensuring their needs and perspectives were prioritized and heard	
	BACHELOR OF COMPUTER ENGINEERING	
	College of Science and Engineering	
	University of Minnesota – Twin Cities, Minneapolis, MN
